(c) *Where to apply.* Application for rice price support must be made at the office of the county committee which keeps the farm program records for the farm. In the case of eligible cooperative marketing associations of producers, application for price support shall be made in the county where the main office of the cooperative marketing association of producers is located or in such other county as the State committee determines the application can be more expeditiously handled.

(d) *When to apply.* Loans and purchase agreements will be available from time of harvest through January 31, 1959, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date. Applicable documents referred to herein include the producer's note and loan agreement for warehouse-storage loans, the producer's note and supplemental loan agreement and the commodity chattel mortgage for farm-storage loans and the purchase agreement for purchase agreements.

(e) *Eligible producer.* An eligible producer shall be a producer who is in compliance with the requirements for eligibility for price support prescribed in the 1958 C. C. Rice Bulletin A and any amendments thereto. Executors, administrators, trustees, or receivers who represent an eligible producer or his estate

may qualify for price support provided the loan or purchase agreement documents executed by them are legally valid. Two or more eligible producers may obtain a joint loan on eligible rice produced by them if stored in the same farm-storage facility. In the case of joint loans, each person signing the note shall be held jointly and severally responsible for the loan. Warehouse-storage loans may be made to a warehouseman who tenders to CCC warehouse receipts issued by him on rice produced by him only in those States where the issuance and pledge of such warehouse receipts are valid under State law.

(f) *Cooperative associations.* A cooperative marketing association which satisfies the requirements of this paragraph shall be deemed an eligible producer and shall be eligible for warehouse storage loans and purchase agreements: *Provided,* That warehouse storage loans may be made to an association which tenders to CCC warehouse receipts issued by it on its own rice only in those States where the issuance and pledge of such warehouse receipts are valid under State law. To be eligible for price support, the association must meet the following requirements:

(1) The association must be a producer-owned and producer-controlled cooperative marketing association of producers which operates in good faith as a cooperative marketing association of producers under the control of its producer members;

(2) All rice, except seed rice, delivered to the association by producer members must be marketed through the association pursuant to a uniform marketing agreement between the association and each of its producer members.

(3) The major part of the rice marketed by the association must be eligible rice produced by members who are eligible producers.

(4) The association must have authority to obtain a loan on the security of the rice and to give a lien thereon as well as authority to sell such rice.

(5) The association must maintain a record by varieties, grade and milling yields of the quantities of rough rice eligible for price support under § 421.3338 acquired by or delivered to the association from each source, and such record must show the disposition of the rice. Similar records must be maintained separately for ineligible rough rice. The association must keep in inventory at all times a quantity of rough rice of the varieties, average grade and milling yield equal to its outstanding warehouse receipts. Rice stored modified commingled or identity preserved must be stored separately by lot and so kept in storage so long as receipts for such rice are outstanding.

(6) Before the association applies for price support or before December 1, 1958, whichever is earlier, the association must set aside in physically segregated storage separate from all other rough rice a quantity of each variety of rough rice of the 1958 crop equivalent in quality and quantity to the eligible rough rice of the 1958 crop which was delivered by eligible producer members and which re-

mains undisposed of in its inventory at the time of such segregation. Eligible rough rice which is received by the association on or after the date of such segregation shall also be set aside in physically segregated storage and may be included with quantities of eligible rough rice.

(7) Price support may be obtained only on the rough rice in approved storage segregated in accordance with subparagraph (6) of this paragraph.

(8) The association shall distribute the proceeds from the disposition of all rice segregated in accordance with subparagraph (6) of this paragraph and of all eligible rice disposed of prior to the date of segregation to only the eligible producers who delivered eligible rice to the association and only on a basis which results in the proceeds being distributed proportionally to such producers according to the quantity and quality of the eligible rice delivered by each eligible producer. This provision shall not be construed to prohibit the association from establishing separate pools based on varieties, grades and qualities of the rice.

(9) Rough rice held by the association must be made available for inspection by CCC at all reasonable times so long as the association has rice under price support and the books and records of the association must be available to CCC for inspection at all reasonable times through May 1, 1964.

(10) Notwithstanding the requirement of subparagraph (1) of this paragraph that the association shall consist of producers, a cooperative marketing association, which includes in its membership other cooperative marketing associations, composed of producer members, shall be eligible for price support if its member associations meet the requirements for price support under this paragraph, except that the requirement in subparagraph (4) of this paragraph shall be deemed to be satisfied if such member associations have the right to deliver rice of its producer members to the association applying for price support and to authorize such association to sell the rice and to obtain a loan on the security of the rice and to give a lien thereon. The association applying for price support shall: (i) in its chapter, by-laws, marketing contracts or by other legal means require that its member associations meet such requirements for price support; (ii) certify to CCC that its member associations are in fact eligible for price support under such requirements; and (iii), except for the requirement that it consist of producers, otherwise qualify for price support under this paragraph.

(11) Determinations with respect to the eligibility of cooperative marketing associations of producers pursuant to this section for either warehouse-storage loans or purchase agreements, or both, shall be made by the Executive Vice President, CCC.

§ 421.3338 *Eligible rice.* Rice to be eligible for price support must meet the following requirements:

(a) The rice must have been produced in 1958 by an eligible producer on a farm

on which the rice acreage allotment was not exceeded.

(b) (1) The beneficial interest in the rice must be in the eligible producer tendering the rice for loan or for purchase under a purchase agreement and must always have been in him, or must have been in him and a former producer whom he succeeded before the rice was harvested.

(2) In the case of cooperative marketing associations, the beneficial interest in the rice must have been in the producer members who delivered the rice to the association or to member associations meeting the requirements of § 421.3337 (f) (10) and must have always been in them and former producers whom they succeeded before the rice was harvested. Rough rice and seed rice acquired by the association from producer members on which the producer members surrender any right to share proportionately in the proceeds of marketing by the association of the rice so purchased is not eligible for price support.

(3) Any producer or association in doubt as to whether the requirements of this paragraph have been fulfilled should make available to the county committee, prior to filing an application, all pertinent information which will permit a determination to be made by CCC.

(c) To meet the requirements of succession to a former producer, the rights, responsibilities and interest of the former producer with respect to the farming unit on which the rice was produced shall have been substantially assumed by the person claiming succession. Mere purchase of the crop prior to harvest, without acquisition of any additional interest in the farming unit shall not constitute succession. The county committee shall determine whether the requirements with respect to succession have been met.

(d) The rice must be of one of the classes within the Official Standards of the United States for Rough Rice other than "mixed rough rice."

(e) The rice, at the time it is placed under loan or purchased under purchase agreement, must (1) grade U. S. No. 5 or better (rice of special grades shall not be eligible rice); (2) contain not more than 14 percent moisture; and (3) must not contain mercurial compounds or other substances poisonous to man or animals.

(f) If offered as security for a farm-storage loan, the rice must have been stored in the granary at least 30 days prior to its inspection for measurement, sampling, and sealing, unless otherwise approved by the ASC State committee.

§ 421.3339 *Bagged and bulk rice.* Rice may be either in bags or in bulk when a loan is obtained or when rice is purchased under a purchase agreement.

(a) *Farm storage.* (1) Loans on farm-stored rice will be made on a bagged or bulk basis in accordance with the manner in which the rice is stored.

(2) Settlement with respect to farm-stored rice acquired by CCC in bulk under loan or purchase agreement shall be on the basis of the net weight of the bulk rice acquired by CCC.

(3) Settlement with respect to farm-stored rice acquired by CCC in bags under loan or purchase agreement shall be on the basis of the combined weight of the rice and bags acquired by CCC, and title to the bags shall pass with the rice. CCC shall not otherwise pay any amounts representing the value of the bags.

(b) *Approved warehouse storage.* (1) In the case of rice in approved warehouse storage, loans shall be made and rice under purchase agreement shall be acquired on a bagged or bulk basis in accordance with the manner in which the rice is to be loaded out by the warehouseman as indicated on the warehouse receipt. Therefore, if a loan is made on the basis of loading out the rice in bags, the rice must be in bags at the time of load out by the warehouseman and, if a loan is made on the basis of loading out the rice in bulk, the rice must be in bulk at the time of load out by the warehouseman.

(2) Settlement with respect to rice in approved warehouse storage which the warehouseman is required to load out in bulk shall be on the basis of the net weight of bulk rice acquired by CCC under loan or purchase agreements.

(3) Settlement with respect to rice in approved warehouse storage, acquired by CCC under loans or purchase agreements, which the warehouseman is required to load out in bags shall be on the basis of the combined weight of the rice and bags, and title to the bags shall pass with the rice, except that, if the rice is not in bags at the time of acquisition by CCC title to the bags shall pass to CCC at the time of load out. CCC shall not otherwise pay any amounts representing the value of the bags. In the event any person should successfully dispute the passing of title to the bags, the producer shall indemnify CCC for any loss sustained by reason thereof.

§ 421.3340 *Warehouse receipts.* (a) Warehouse receipts must be issued in the name of the producer, or cooperative marketing association, must be properly endorsed in blank so as to vest title in any holder, and must be issued by an approved warehouse as defined in § 421.3006 (b). The receipts must be negotiable, must cover eligible rice actually in store in the warehouse and must clearly indicate whether the rice is stored in bulk or in bags (sacks), and whether the rice is to be delivered in bulk or in bags (sacks). Under the uniform rice storage agreement, the warehouseman guarantees the quantity and quality of the rice unless the warehouse receipts or accompanying supplemental certificates state that the rice is stored "identity preserved" or "modified commingled." In the case of rice stored identity preserved, the warehouseman is not a guarantor but is required to load out the identical rice for which the warehouse receipt was issued. In the case of rice stored modified commingled, the warehouseman guarantees quantity but not quality and the rice is stored in one lot, the identity of which the warehouseman is required to maintain. The warehouse receipts or accompanying

supplemental certificates representing rice stored modified commingled shall contain the following statement:

Modified commingled means the storage or handling of rice in bulk or in bags by commingling in one lot rice of a single class and of a similar grade and quality, in such manner that rice actually deposited in that lot prior to a sample being drawn for quality determination, and no other, may be delivered to the holder of each warehouse receipt issued with respect to such rice.

(b) If the receipt is issued for rice of which the warehouseman is the owner either solely, jointly, or in common with others, the fact of such ownership shall be stated on the receipt. Such receipts shall also be registered or recorded with appropriate State or local officials when required by State law.

(c) In order to be acceptable as security for a warehouse-storage loan, each warehouse receipt, or the accompanying supplemental certificate, must contain a statement that the rice is insured to the extent required by CCC Form 26, "Uniform Rice Storage Agreement," and if such insurance was not effective as of the date of deposit of the rice in the warehouse, the warehouseman must certify as to the effective date of the insurance and that the rice is in the warehouse and undamaged. Insurance on commingled and modified-commingled rice must be obtained by the warehouseman. Insurance on identity-preserved rice must be obtained by either the producer or the warehouseman. If the insurance on identity-preserved rice is obtained by the producer, it must be assigned to the warehouseman, with the consent of the insurance company, before a loan will be made and the warehouseman must also certify that the insurance has been assigned to him with the consent of the insurance company. Insurance is not required in order for rice represented by warehouse receipts to be purchased under the purchase agreement program.

(d) A supplemental certificate will be required to be executed in duplicate when all of the following information is not contained in the warehouse receipt or inspection certificate: Variety, grade, grade factors, milling yield, moisture, gross and net weight, method of storage, manner in which the rice will be delivered (bulk or bagged), and manner by which the rice was received. When required, the supplemental certificate (completed for all items) shall be executed by the warehouseman for commingled rice, by the warehouseman and producer for modified-commingled rice and by the producer for identity-preserved rice.

(e) When the warehouse receipt represents identity-preserved rice, the producer's responsibility will be the same as stated in § 421.3015 for farm-stored rice. The producer's responsibility for modified-commingled rice shall be the same as stated in § 421.3015 for farm-stored rice except that he shall not be responsible for the quantity.

(f) A separate warehouse receipt must be submitted for each class or variety, grade, and milling yield of rice.

(g) Warehouse receipts covering rice which is in approved warehouse storage on or before the maturity date for loans

and which is to be placed under loan or acquired by CCC under purchase agreement must carry an endorsement by the warehouseman in substantially the following form:

Warehouse charges through (insert the applicable maturity date for loans for the State where stored), including, but not limited to, receiving and loading out charges accrued or to accrue, and all other charges incident to the acquisition of the rice by CCC, on the rice represented by this warehouse receipt have been paid or otherwise provided for and a lien for such charges will not be claimed by the warehouseman from CCC or any subsequent holder of the warehouse receipt. If the rice represented by this warehouse receipt is to be loaded out in bags (sacks), the warehouseman agrees that any and all right, title, and interest which he has in such bags (sacks) shall pass with the rice when such rice is acquired under the price support program or shall pass at the time the rice is loaded out, if the rice is not in bags at the time of acquisition by CCC.

(h) The warehouse receipt shall not contain any statement indicating that the quantity is subject to a shrinkage factor.

§ 421.3341 Determination of quantity. (a) Loans and purchase agreements shall be made on the basis of rough rice expressed in units of 100 pounds, and fractional units of less than 100 pounds shall be disregarded except in the case of loans made on the basis of commingled warehouse receipts the exact weight shown on the warehouse receipt shall be used. The quantity of rice placed under farm-storage loan may be determined either by weight or by measurement. The quantity of rice placed under a warehouse-storage loan shall be determined on the basis of weight. Determination of the quantity of rice delivered under a farm-storage loan, or for making settlement on an identity-preserved warehouse-storage loan or under a purchase agreement shall be on the basis of weight.

(b) In determining the quantity of bagged rice by weight, the gross weight, including bags, shall be used. When necessary to convert bagged rice to a bulk basis or bulk rice to a bagged basis, an adjustment of 0.6 pound for 100 pounds of gross weight shall be made as allowance for the weight of the bag.

(c) When the quantity of rice is determined by measurement, a cubic foot of rice testing 45 pounds per bushel, shall be 36 pounds. The quantity determined will be the following percentages of 36 pounds:

For rice testing:	Percent
45 pounds or over.....	100
44 pounds or over, but less than 45 pounds.....	98
43 pounds or over, but less than 44 pounds.....	96
42 pounds or over, but less than 43 pounds.....	93
41 pounds or over, but less than 42 pounds.....	91
40 pounds or over, but less than 41 pounds.....	89

The percentages shall be proportionately lower for rice testing below 40 pounds.

(d) In the case of commingled rice, loans will be made and settlement with the producer will be made on 100 percent

of the quantity of the rice determined in accordance with this section, based on the quantity shown on the warehouse receipt or the supplemental certificate. In all other cases, loans will be made on 95 percent of the quantity of rice determined in accordance with this section, and the determination of quantity for settlement purposes will be made on the basis of the actual quantity acquired by CCC, except that in the case of rice stored modified commingled, settlement with the producer will be made on the basis of 100 percent of the quantity shown on the warehouse receipt or the supplemental certificate.

(e) In the case of rice under purchase agreement, the producer shall, at the time he notifies the county committee of his intention to sell rice to CCC, specify the quantity of each class or variety of rice included in the total quantity to be sold.

§ 421.3342 Determination of quality.

(a) The class, grade, grade factors, milling yield and all quality factors for price support purposes shall be determined in accordance with the methods set forth in the Official United States Standards for Rough Rice.

(b) In the case of commingled rice, loans will be made and settlement with the producer, either on loans or purchase agreements, will be on the basis of the quality shown on the warehouse receipt or supplemental certificate. In all other cases, loans will be made on the basis of quality shown on the official (Federal or Federal-State) sample inspection certificate, based on a representative sample drawn by the county committee for each lot of rice at the time application is made for the loan, and settlement with the producer, both with respect to loans and purchase agreements, will be on the basis of quality determined by a Federal or Federal-State lot inspection certificate dated not earlier than 30 days prior to the applicable maturity date for loans, and submitted by the producer in accordance with the settlement provisions of this bulletin. Sample inspection fees incurred by the county committee in connection with the making of loans will be for the account of CCC. Lot inspection fees incurred in connection with the acquisition of rice by CCC will be for the account of the producer.

§ 421.3343 Maturity of loans. Unless demand is made earlier, loans on rice will mature on March 16, 1959.

§ 421.3344 Support rates. Loans and purchases under purchase agreement will be made at the support rates set forth in this section.

(a) **Basic rates.** The basic support rate per 100 pounds of rough rice shall be computed as follows: Multiply the yield (in pounds per hundredweight) of head rice by the applicable value factor for head rice (as shown in the table below according to class or variety). Similarly, multiply the difference between the total yield and head rice yield (in pounds per hundredweight) by the applicable value factor for broken rice. Add the results of these two computations to obtain the basic loan or purchase rate per 100 pounds of rough rice and

express such rate in dollars and cents, rounded to the nearest whole cent.

§ 421.3345 Warehouse charges. (a) CCC will refund to the producer an amount computed at the rate of 8 cents per hundred pounds as compensation for any receiving and loading out charges paid by the producer on rice stored in an approved warehouse on or before loan maturity date prior to acquisition by CCC and acquired by CCC in such approved storage.

(b) CCC will assume receiving charges on (1) rice delivered under the price support program to an approved warehouse for the account of CCC in satisfaction of a farm-storage loan, and (2) rice delivered under the price support program after loan maturity date to an approved warehouse for the account of CCC pursuant to a purchase agreement and acquired by CCC.

(c) CCC will assume warehouse-storage charges accruing on and after the day following the loan maturity date on rice which is in approved warehouse storage on the maturity date for loans and acquired by CCC under a warehouse-storage loan or under a purchase agreement.

(d) CCC will assume warehouse-storage charges from and after the date of completion of deposit of the rice in the warehouse on (1) rice delivered under the price support program to an approved warehouse for the account of CCC in satisfaction of a farm-storage loan, and (2) rice delivered from other than approved warehouse storage under the price support program to an approved warehouse after loan maturity date for the account of CCC pursuant to a purchase agreement and acquired by CCC.

(e) Fees for inspection and weighing and any special charges assessed by the warehouseman shall be for the account of the producer.

§ 421.3346 *Settlement*—(a) *Farm-storage loans*. (1) For settlement on loans on farm-stored rice the producer shall, at his own expense at the time of delivery of the rice, furnish to the county committee official weight certificates and Federal or Federal-State lot inspection certificates dated not earlier than 30 days prior to the applicable maturity date, covering the rice. Settlement on such loans will be made at the applicable support rate for the grade and quality of the quantity of rice as shown by such weight certificates and inspection certificates. However, notwithstanding the foregoing provisions of this subparagraph, if, at the time of delivery to CCC of the rice, the warehouseman, with the agreement of the producer, issues a commingled warehouse receipt covering the rice, inspection and weight certificates will not be required and settlement with the producer will be made at the applicable support rate for the quantity and quality of rice shown on the commingled warehouse receipt.

(2) If the inspection certificate for the rice under farm-storage loan, or, where applicable, the commingled receipt for rice originally covered by a farm-storage loan, shows that the rice is of a grade for which no support rate has been established, the settlement value shall be the support rate established for the grade and milling yield of the rice placed under loan, less the difference, if any, on the date that the inspection and weight certificates, or the commingled receipts, are delivered to the county committee, between the market price for the grade and milling yield placed under loan and the market price of the rice described in the inspection certificate or commingled warehouse receipts, as determined by CCC: *Provided, however*, That if the rice

is sold by CCC in order to determine its market price, the settlement value shall not be less than such sales price: *And provided further*, That if, upon delivery the rice contains mercurial compounds or other substances poisonous to men or animals, such rice shall be sold for seed (in accordance with applicable State seed laws and regulations), fuel or industrial uses where the end product will not be consumed by man or animals, and settlement value shall be the same as the sales price, except that if CCC is unable to sell such commodity for the use specified above, the settlement value shall be the market value of such rice, as determined by CCC, as of the date of delivery.

(3) If rice, placed under farm-storage loan in an area where a location differential is in effect, is delivered to CCC by the producer in satisfaction of the loan in a rice producing area where no location differential is applicable, settlement will be made on the basis of the applicable support rate for the area where the rice is delivered.

(b) *Identity-preserved warehouse-storage loans*. (1) For settlement on loans on identity-preserved warehouse stored rice not repaid by maturity, the producer shall, at his own expense and within 10 days after maturity, furnish to the county committee official weight certificates and Federal or Federal-State lot inspection certificates dated not earlier than 30 days prior to the applicable maturity date, covering the rice. Settlement on such loans will be made at the applicable support rate for the grade and quality of the quantity of rice as shown by such weight certificates and inspection certificates. However, notwithstanding the foregoing provisions of this subparagraph, if, at the time of acquisition by CCC of rice covered by an identity-preserved warehouse-storage loan, the warehouseman, with the agreement of the producer, issues a commingled warehouse receipt covering the rice, inspection and weight certificates will not be required and settlement with the producer will be made at the applicable support rate for the quantity and quality of rice shown on the commingled warehouse receipt. Notwithstanding the foregoing provisions of this subparagraph, if CCC determines that the warehouseman failed to maintain the identity of rice covered by an identity-preserved warehouse-storage loan, the producer will not be required to furnish lot inspection and weight certificates, and settlement with the producer will be made at the applicable support rate for the quantity and quality of rice shown on the warehouse receipt and supporting documents.

(2) If the inspection certificate for the rice under identity-preserved warehouse-storage loan, or, where applicable, the commingled receipt for rice originally stored identity-preserved, shows that the rice is of a grade for which no support rate has been established, the settlement value shall be the support rate established for the grade and milling yield of the rice placed under loan, less the difference, if any, on the date that the inspection and weight certificates, or the commingled receipts, are delivered

to the county committee, between the market price for the grade and milling yield placed under loan and the market price of the rice described in the inspection certificate or commingled receipt, as determined by CCC: *Provided, however*, That if the rice is sold by CCC in order to determine its market price, the settlement value shall not be less than such sales price: *And provided further*, That if upon delivery the rice contains mercurial compounds or other substances poisonous to man or animals, such rice shall be sold for seed (in accordance with applicable State seed laws and regulations), fuel, or industrial uses where the end product will not be consumed by man or animals, and the settlement value shall be the same as the sales price, except that if CCC is unable to sell such rice for the uses specified above, the settlement value shall be the market value of such rice, as determined by CCC, as of the date of delivery.

(c) *Modified-commingled warehouse-storage loans*. (1) For settlement on loans on modified-commingled warehouse-storage rice not repaid by maturity, the producer shall at his own expense and within 10 days after maturity, furnish to the county committee a Federal or Federal-State lot inspection certificate dated not earlier than 30 days prior to the applicable maturity date, covering the lot of rice acquired by CCC which must have been taken from the modified-commingled lot against which the warehouse receipt representing the rice under loan was issued. Settlement on such loans shall be made at the applicable support rate for the grade and quality of rice as shown on the inspection certificate and for the quantity shown on the warehouse receipt. However, notwithstanding the foregoing provisions of this subparagraph, if, at the time of acquisition of the rice by CCC, the warehouseman, with the agreement of the producer, issues a commingled warehouse receipt covering the rice, inspection certificates will not be required and settlement with the producer will be made at the applicable support rate for the quantity and quality of rice shown on the commingled warehouse receipt. Notwithstanding the foregoing provisions of this subparagraph, if CCC determines that the warehouseman failed to maintain the identity of any lot of rice covered by a modified-commingled warehouse-storage loan, the producer will not be required to furnish lot inspection certificates, and settlement with the producer will be made at the applicable support rate for the quantity and quality of rice shown on the warehouse receipt and supporting documents.

(2) If the inspection certificate for the rice under modified-commingled warehouse-storage loan, or, where applicable, the commingled warehouse receipt for rice originally stored modified commingled, shows that the rice is of a grade for which no support rate has been established, the settlement value shall be the support rate established for the grade and milling yield of the rice placed under loan, less the difference, if any, on the date that the inspection certificate, or commingled receipt, is delivered

to the county committee, between the market price for the grade and milling yield placed under loan and the market price of the rice described in the inspection certificate or commingled warehouse receipt, as determined by CCC: *Provided, however*, That if the rice is sold by CCC in order to determine its market price, the settlement value shall not be less than such sales price: *And provided, further*, That if upon delivery the rice contains mercurial compounds or other substances poisonous to man or animals, such rice shall be sold for seed (in accordance with applicable State seed laws and regulations), fuel, or industrial uses where the end product will not be consumed by man or animals, and the settlement value shall be the same as the sales price, except that if CCC is unable to sell such rice for the uses specified above, the settlement value shall be the market value of such rice, as determined by CCC, as of the date of delivery.

(d) *Commingled warehouse-storage loans.* Settlement will be made with the producer at the applicable support rate for the quantity and quality of rice shown on the warehouse receipt and accompanying documents.

(e) *Purchase agreements.* (1) The producer who signs a purchase agreement (Commodity Purchase Form 1) will not be obligated to sell any quantity of the rice to CCC. However, he may sell to CCC any quantity of eligible rice not in excess of the quantity stated in the purchase agreement. If the producer who signs a purchase agreement wishes to sell the rice to CCC, he will have a 30-day period during which he must notify the county committee in writing of his intentions to sell. Such period shall end on the applicable loan maturity date specified in § 421.3343 or such earlier date as may be prescribed by the Executive Vice President, CCC.

(2) In the case of eligible rice stored commingled in an approved warehouse, the producer must, not later than the day following the final date of such 30-day period, or during such period of time thereafter as may be specified by the county committee, submit to the county committee warehouse receipts under which the warehouseman guarantees quality and quantity, for the quantity of rice he elects to sell to CCC. In the case of eligible rice stored in other than approved warehouse storage, or stored identity-preserved or modified commingled in approved warehouse storage, the county committee will, on or after the final date of such 30-day period, issue delivery instructions to the producer. The producer must then complete delivery within a 15-day period immediately following the date the county committee issues delivery instructions, unless the county committee determines that more time is needed for delivery.

(3) The producer may be required to retain rice stored in other than approved warehouse storage for a period of 60 days after the applicable loan maturity date without any cost to CCC. CCC will not assume any loss in quantity or quality of rice covered by a purchase agree-

ment, occurring prior to delivery to CCC, except for quality deterioration under the following circumstances. If a producer has properly requested delivery instructions and CCC cannot accept delivery within the 60-day period following the applicable loan maturity date, the producer may notify the county committee at any time after such 60-day period that the rice is going out of condition or is in danger of going out of condition. Such notice must be confirmed in writing. If the county committee determines that the rice is going out of condition or is in danger of going out of condition and that the rice cannot be satisfactorily conditioned by the producer, and delivery cannot be accepted within a reasonable length of time, the county committee shall obtain an inspection and grade and quality determination. If such inspection shows the rice to be of an eligible grade, settlement, when delivery is completed, shall be made on the basis of such grade and quality determination or on the basis of the grade and quality determination made at the time of delivery, whichever is higher, and on the basis of the quantity actually delivered.

(4) Eligible rice sold to CCC under a purchase agreement will be purchased at the applicable support rate for the grade and quality of the rice sold. CCC will accept modified commingled warehouse receipts under the purchase agreement program only when the entire quantity of rice in the modified commingled lot against which the warehouse receipt was issued, is delivered to CCC in a single unit. Otherwise, rice so stored must be removed from such storage and, if the producer desires to deliver warehouse receipts to CCC under the sale, new warehouse receipts representing the lot to be sold must be obtained from an approved warehouse. Where the rice sold to CCC is represented by modified commingled warehouse receipts, the producers shall, at their expense, furnish to the county committee at the time of sale Federal or Federal-State lot inspection certificates covering the entire quantity of rice in the modified-commingled lot issued on a single date not earlier than 30 days prior to the applicable maturity date for loans and settlement with each producer will be made at the applicable support rate for the quality of rice shown on such inspection certificates and the quantity of rice shown on the warehouse receipt. Where the rice sold is represented by an identity-preserved warehouse receipt or is physically delivered to CCC, the producer shall, at his expense, furnish to the county committee at the time of sale official weight certificates and Federal or Federal-State lot inspection certificates dated not earlier than 30 days prior to the applicable maturity date for loans and settlement with the producer will be made at the applicable support rate for the quantity and quality of rice shown on such weight and inspection certificates. Where the rice sold is represented by commingled warehouse receipts, inspection and weight certificates will not be required and settlement

with the producer will be made at the applicable support rate for the quantity and quality of rice shown on the commingled warehouse receipt. When delivery is completed, payment will be made by sight draft drawn on CCC by the county office. The producer shall direct on Commodity Purchase Form 4 to whom payment of the proceeds shall be made.

(5) Where rice of an ineligible quality is inadvertently accepted by CCC, such rice shall be sold by CCC in order to determine its market price, and the settlement value shall not be less than such sales price. Where the rice contains mercurial compounds or other substance poisonous to man or animals and is inadvertently accepted by CCC such rice shall be sold for seed (in accordance with applicable State seed laws and regulations), fuel, or industrial uses where the end product will not be consumed by man or animals, and the settlement value shall be the same as the sales price, except that if CCC is unable to sell such rice for the uses specified above, the settlement value shall be the market value, as determined by CCC, as of the date of delivery. Nothing contained in this section shall be construed to waive or modify any right of CCC or of the United States arising out of the pledge for a loan or the sale under a purchase agreement of rice containing a mercurial compound or other substance poisonous to man or animals.

(f) *Storage payment where CCC is unable to take delivery of rice stored in other than an approved warehouse under loan or purchase agreement.* The producer may be required to retain rice stored in other than an approved warehouse under loan or purchase agreement for a period of 60 days after the applicable maturity date without any cost to CCC. However, if CCC is unable to take delivery of such rice within the 60-day period after maturity, the producer shall be paid a storage payment upon delivery of the rice to CCC: *Provided, however*, That a storage payment shall be paid a producer whose rice is stored in other than an approved warehouse under purchase agreement only if he has properly given notice of his intention to sell the rice to CCC and delivery cannot be accepted within the 60-day period after maturity. The period for earning such storage payment shall begin the day following the expiration of the 60-day period after maturity and extend through the final date of delivery, or the final date for delivery as specified in the delivery instructions issued to the producer by the county office, whichever is earlier. The storage payment shall be computed at the rate of 2½ cents per cwt. for each 30 days or fraction thereof for the eligible rice accepted for delivery by CCC.

(g) *Weight or inspection certificates.* In any instance where the producer fails to furnish to CCC weight or inspection certificates required for settlement on loans, CCC may obtain such certificates. The cost incurred by CCC in obtaining such certificates and any other fees or expenses incurred in connection

with settlement on loans shall be for the account of the producer.

§ 51.3149 *Unclassified.* "Unclassified" consists of nectarines which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no grade has been applied to the lot.

TOLERANCES

§ 51.3150 *Tolerances.* In order to allow for variations incident to proper grading and handling in each of the

foregoing grades, the following tolerances, by count, are provided as specified:

(a) *U. S. Fancy, U. S. Extra No. 1 and U. S. No. 1 grades—(1) For defects.* 10 percent for nectarines in any lot which fail to meet the requirements of the specified grade: *Provided*, That not more than one-half of this amount, or 5 percent, shall be allowed for defects causing serious damage, including in this latter amount not more than 1 percent for nectarines affected by decay.

(2) *For color—(i) U. S. Fancy grade.* 10 percent for nectarines in any lot which fail to meet the requirements of the grade.

(ii) *U. S. Extra No. 1 grade.* In the case of the John Rivers variety individual containers may have not less than 40 percent of the nectarines showing some blushed or red color: *Provided*, That the entire lot averages not less than 50 percent of the nectarines showing this color. In the case of other varieties individual containers may have not less than 65 percent of the nectarines showing some blushed or red color including therein not less than 40 percent of the nectarines having at least one-third of the fruit surface showing red color characteristic of the variety: *Provided*, That the entire lot averages not less than 75 percent of the nectarines showing some blushed or red color, including therein not less than 50 percent of the nectarines having at least one-third of the fruit surface showing red color characteristic of the variety.

(iii) *U. S. No. 1 grade.* Except for the John Rivers variety individual containers may have not less than 65 percent of the nectarines showing some blushed or red color: *Provided*, That the entire lot averages not less than 75 percent of the nectarines showing this color.

(b) *U. S. No. 2 grade—(1) For defects.* 10 percent for nectarines in any lot which fail to meet the requirements of the grade: *Provided*, That not more than one-tenth of this amount, or 1 percent, shall be allowed for nectarines affected by decay.

APPLICATION OF TOLERANCES

§ 51.3151 *Application of tolerances.* (a) The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations: *Provided*, That the averages for the entire lot are within the tolerances specified for the grade:

(1) For packages which contain more than 5 pounds, and a tolerance of 10 percent or more is provided, individual packages in any lot shall have not more than one and one-half times the tolerance specified. For packages which contain more than 5 pounds and a tolerance of less than 10 percent is provided, individual packages in any lot shall have not more than double the tolerance specified, except that at least one defective and one off-size specimen may be permitted in any package; and,

(2) For packages which contain 5 pounds or less, individual packages in any lot are not restricted as to the percentage of defects or off-size: *Provided*, That not more than one nectarine which

¹ Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

is soft or affected by decay shall be permitted in any package.

STANDARD PACK

§ 51.3152 *Standard pack.* (a) Nectarines shall be fairly uniform in size and shall be packed in boxes, lugs, crates, cartons or baskets and arranged according to the approved and recognized methods. All such containers shall be tightly packed and well filled but the contents shall not show excessive or unnecessary bruising resulting from overfilling. The nectarines in the shown face shall be reasonably representative in size, color and quality of the contents of the container. Each wrapped fruit shall be fairly well enclosed by its individual wrapper.

(b) When packed in closed containers, the size shall be indicated by marking the container with the numerical count, the pack arrangement, or the minimum diameter or minimum and maximum diameters in terms of inches and not less than one-eighth fractions of inches.

(c) Boxes, lugs or cartons: (1) The number of nectarines packed in a box or lug shall not vary more than 4 from the number indicated on the container.

(2) Nectarines packed in containers equipped with cell compartments, molded trays, or paper cups shall be of the proper size for the cells, molds or cups in which they are packed.

(d) Four-basket crates: (1) The size of nectarines packed in four-basket crates shall be indicated as follows: 3 x 4, 3-4 x 4, 3-4 x 5, 4 x 4, etc., in accordance with the arrangement in the top layer of the basket. These packs shall not be more than three layers deep.

(2) The arrangement of the bottom layer shall be one row less one way, and may be one row less each way, than the arrangement of the top layer. The arrangement of the middle layer may be the same as the top layer or may be one row less one way than the arrangement of the top layer. Straight, offset and diagonal packs in the layers are permitted.

(e) Baskets: Nectarines packed in U. S. standard half-bushel baskets shall be ring faced and tightly packed with sufficient bulge to prevent any appreciable movement of the nectarines within the baskets when lidded.

(f) "Fairly uniform in size" means that not more than 5 percent of the nectarines vary in diameter more than is permitted for the applicable size of fruit and type of container as shown in the following table:

TABLE I

Type of container	Size	Variation permitted in diameter
Four-basket crates—California Peach Box.	All.....	$\frac{1}{4}$ inch.
Do.....	80 or smaller.....	$\frac{1}{4}$ inch.
Lugs.....	75 or larger.....	$\frac{3}{8}$ inch.
Do.....	85 or smaller.....	$\frac{1}{4}$ inch.
Do.....	80 or larger.....	$\frac{3}{8}$ inch.
Other containers.....	2 inches diameter or smaller.....	$\frac{1}{4}$ inch.
Do.....	Over 2 inches to $2\frac{3}{4}$ inches diameter.....	$\frac{3}{8}$ inch.
Do.....	Over $2\frac{3}{4}$ inches diameter.....	$\frac{1}{2}$ inch.

(g) Minimum size: When size is indicated in terms of minimum diameter not more than 5 percent, by count, of the fruit in any container may be smaller than the size marked.

(h) "Diameter" means the greatest dimension measured at right angles to a line from stem to blossom end of the fruit.

(i) Tolerances: In order to allow for variations incident to proper sizing and packing, not more than 10 percent, by count, of the containers in any lot may fail to meet the requirements for Standard Pack.

§ 51.3155 *Clean.* "Clean" means that the fruit is practically free from dirt or other foreign material.

§ 51.3156 *Injury.* "Injury", unless otherwise specifically defined in this section, means any defect which more than slightly affects the appearance, or the edible or shipping quality of the nectarine. Any one of the following defects, or any combination of defects the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as injury:

(a) Growth cracks when deep or not well healed, or when well healed and shallow and more than 1 in number or more than one-eighth inch in length;²

(g) Scars which exceed the following aggregate areas of different types of scars, or a combination of two or more types of scars the seriousness of which exceeds the maximum allowed for any one type:

(1) Scars which are dark, rough or deep when the aggregate area exceeds that of a circle one-fourth inch in diameter;²

(2) Scars which are fairly light in color, fairly smooth or of slight depth when the aggregate area exceeds that of a circle five-eighths inch in diameter;² and,

(3) Scars which are light in color, smooth and have no depth when the aggregate area exceeds that of a circle three-fourths inch in diameter;²

(h) Russetting when the aggregate area exceeds one-fourth of the fruit surface;

(i) Soft or overripe nectarines; and,
(j) Wormy fruit or worm holes.

It is hereby found that good cause exists for not postponing the effective date of these standards beyond the date of publication hereof in the *FEDERAL REGISTER* (5 U. S. C. 1001 et seq.), in that: (1) The 1958 packing season for nectarines will start during June and it is in the interest of the public and the industry that the standards be placed in effect at the earliest possible date; and (2) no special preparation is required for compliance with the standards on the part of the members of the nectarine industry or of others.

The United States Standards for Nectarines contained in this subpart shall become effective on publication hereof in the *FEDERAL REGISTER*, and will thereupon supersede the United States Standards for Nectarines which have been in effect since July 27, 1938.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the *FEDERAL REGISTER* (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on June 5, 1958.

S. C. 601 et seq.), and upon the basis of the recommendations and information submitted by the Control Committee, established under the said amended marketing agreement and order, it is hereby found that the following amendment to the currently effective rules and regulations (7 CFR Part 936.100 et seq.; Subpart—Rules and Regulations) is in accordance with the provisions of the said marketing agreement and order, as amended, and such amendment is hereby approved:

Add, after § 936.178, the following new section:

§ 936.179 *Assessment reports*. In lieu of the reporting requirements set forth in §§ 936.176, 936.177, and 936.178, the Control Committee may request a shipper to file, and upon such request such shipper shall file with the manager of the Control Committee a monthly summary showing the total quantity of Bartlett pears, plums, and Elberta peaches which he shipped during the specified month; and such shipper may remit with his monthly report sufficient funds to cover the assessment due on the shipments which he reports.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication in the *FEDERAL REGISTER* (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that the provisions of the aforesaid amendment authorize use of a less restrictive alternative reporting requirement than currently is specified in the said rules and regulations.

TITLE 8—ALIENS AND
NATIONALITYChapter I—Immigration and Natural-
ization Service, Department of
JusticePART 235—INSPECTION OF ALIENS
APPLYING FOR ADMISSIONPART 238—CONTRACTS WITH
TRANSPORTATION LINES

PREEXAMINATION OF ALIENS

Reference is made to the notice of proposed rule making which was published in the FEDERAL REGISTER of April 9, 1958 (23 F. R. 2300) and in which there was set out in full the terms of proposed amendments to Part 235, Chapter I, Title 8 of the Code of Federal Regulations. Representations which were received concerning the proposed rules have been considered. The proposed rules have been amended by adding the phrase "on and after December 24, 1952," to § 235.5 (b) and, Part 238 has been amended. The amendatory regulations, as set out below, are hereby adopted.

1. Section 235.5 *Pre-inspection in certain parts of the United States* is amended to read as follows:

§ 235.5 *Preexamination*—(a) *In United States territories and possessions.* In the case of any aircraft proceeding from Hawaii, Alaska, Guam, Puerto Rico, or the Virgin Islands of the United States destined directly and without touching at a foreign port or place to any other of such places or to the continental United States, the examination required by the act of the passengers and crew may be made prior to the departure of the aircraft, and in such event, final determination of admissibility shall be made immediately prior to such departure. The examination shall be conducted in accordance with sections 234, 235, 236, and 237 of the act and this part and Parts 236 and 237 of this chapter, except that if it appears to the examining immigration officer that any person in the United States being examined under this section is prima facie deportable from the United States, further action with respect to his examination shall be deferred and further proceedings conducted as provided in section 242 of the act and Part 242 of this chapter. When the foregoing inspection procedure is applied to any aircraft, persons examined and found admissible shall be placed aboard the aircraft, or kept at the

airport separate and apart from the general public until they are permitted to board the aircraft. No other person shall be permitted to depart on such aircraft until and unless he is found to be admissible as provided in this section.

(b) *In contiguous territory and adjacent islands.* On and after December 24, 1952, in the case of any aircraft or vessel proceeding directly from a port or place in foreign contiguous territory or adjacent islands to a port of entry in the continental United States, the examination and inspection of passengers and crew required by the act and final determination of admissibility may be made immediately prior to such departure at the port or place in foreign contiguous territory or adjacent islands and shall have the same effect under the act as though made at the destined port of entry in the United States.

(Sec. 103, 66 Stat. 173; 8 U. S. C. 1103)

2. The title of Part 238—*Entry Through or From Foreign Contiguous Territory and Adjacent Islands* is amended to read as set forth above.

3. Part 238 is amended to read as follows:

§ 238.1 *Contracts.* The contracts with transportation lines referred to in sections 238 (a) and (b) of the act shall be made by the regional commissioner in behalf of the Government and shall be in such form as prescribed. The contracts with transportation lines referred to in section 238 (d) of the act shall be made by the Commissioner in behalf of the Government and shall be on Form I-426.

(Sec. 103, 66 Stat. 173; 8 U. S. C. 1103. Interprets or applies sec. 238, 66 Stat. 202; 8 U. S. C. 1228)

The basis and purpose of the above-prescribed regulations are to provide for final determination of admissibility prior to departure from foreign contiguous territory or adjacent islands.

This order shall become effective on the date of its publication in the FEDERAL REGISTER. Compliance with the requirements of section 4 (c) of the Administrative Procedure Act is unnecessary and would serve no useful purpose in this instance because the persons affected by the regulations prescribed will not require additional time to prepare for the effective date of the regulations.

Dated: June 3, 1958.

J. M. SWING,
Commissioner of
Immigration and Naturalization.

R. 4284) are amended by adding to § 120.126 the following tolerances for residues of inorganic bromides resulting from soil treatment with ethylene dibromide: 50 parts per million in or on okra; 40 parts per million in or on pineapple. With these additions, § 120.126 is revised to read as follows:

§ 120.126 *Tolerances for residues of inorganic bromides resulting from soil treatment with ethylene dibromide.* Tolerances for residues of inorganic bromides (calculated as Br) in or on raw agricultural commodities grown in soil treated with ethylene dibromide are established as follows:

(a) 75 parts per million in or on broccoli, carrots (with or without tops), melons, parsnips,

(b) 50 parts per million in or on eggplant, okra, summer squash, sweet corn, sweet corn forage, sweetpotatoes, tomatoes.

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Rules Amdt. 3-113]

[FCC 58-515]

PART 3—RADIO BROADCAST SERVICES

FREQUENCY AND MODULATION MONITORS FOR TELEVISION BROADCAST STATIONS

In the matter of amendment of §§ 3.690 (a) and 3.691 (a) of the Commission's rules governing television broadcast stations to extend the time for compliance with the provisions therein.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 28th day of May 1958.

The Commission having under consideration the provisions of §§ 3.690 (a) and 3.691 (e) of its rules, which require that television broadcast stations have type-approved frequency and modulation monitors at the station whenever the transmitter is in operation.

It appearing that the time specified for compliance with the requirements of §§ 3.690 (a) and 3.691 (a) was last extended to June 1, 1958; and

It further appearing that with the continued development of more stable frequency control circuits in all types of broadcast transmitters (AM, FM and TV), the Commission is considering a review of its requirements regarding continuously operating frequency monitors to ascertain whether such apparatus is still needed or is adequate to ensure that the operating frequencies of broadcast stations are maintained within the prescribed frequency tolerances; and that should it appear that the rules relating to such monitors should be amended, an appropriate rule making proceeding will be initiated; and

It further appearing that since the requirements of §§ 3.690 (a) and 3.691 (a) have not, as yet, been placed in effect and in view of the possibility that these rules may be amended in the near future, the Commission deems it desirable to postpone the effective date of these sections of the rules for an additional period of one year; and

It further appearing that the amendment herein ordered is procedural in nature and effects a relaxation of the rules; therefore, compliance with the requirements of section 4 of the Administrative Procedure Act is not required;

And it further appearing that authority for the amendments adopted herein is contained in sections 303 (e), (f) and (r) and 4 (i) of the Communications Act of 1934, as amended;

It is ordered, That, effective June 1, 1958, §§ 3.690 (a) and 3.691 (a) are amended by substituting the date "June 1, 1959", in the parenthetical sentence to each of these sections.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

NOTICES

DEPARTMENT OF THE TREASURY

Office of the Secretary

[1958 Dept. Circular 1009]

3 1/4 PERCENT TREASURY BONDS OF 1985

OFFERING OF BONDS

JUNE 3, 1958.

I. *Offering of bonds.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at 100 1/2 and accrued interest, from the people of the United States for bonds of the United States, designated 3 1/4 percent Treasury

Bonds of 1985. The amount of the offering under this circular is \$1,000,000,000, or thereabouts. In addition to the amount offered for public subscription, the Secretary of the Treasury reserves the right to allot up to \$100,000,000 of these bonds to Government Investment Accounts. The books will be open only on June 3 for the receipt of subscriptions for this issue.

II. *Description of bonds.* 1. The bonds will be dated June 3, 1958, and will bear interest from that date at the rate of 3 1/4 percent per annum, payable on a semiannual basis on November 15, 1958, and thereafter on May 15 and Novem-

ber 15 in each year until the principal amount becomes payable. They will mature May 15, 1985, and will not be subject to call for redemption prior to maturity.

2. The income derived from the bonds is subject to all taxes imposed under the Internal Revenue Code of 1954. The bonds are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The bonds will be acceptable to secure deposits of public moneys.

4. Bearer bonds with interest coupons attached, and bonds registered as to principal and interest, will be issued in denominations of \$500, \$1,000, \$5,000, \$10,000, \$100,000 and \$1,000,000. Provision will be made for the interchange of bonds of different denominations and of coupon and registered bonds, and for the transfer of registered bonds, under rules and regulations prescribed by the Secretary of the Treasury.

5. Any bonds issued hereunder which upon the death of the owner constitute part of his estate, will be redeemed at the option of the duly constituted representatives of the deceased owner's estate, at par and accrued interest to date of payment: *Provided:*

(a) That the bonds were actually owned by the decedent at the time of his death; and

(b) that the Secretary of the Treasury be authorized to apply the entire proceeds of redemption to the payment of Federal estate taxes.

Registered bonds submitted for redemption hereunder must be duly assigned to "The Secretary of the Treasury for redemption, the proceeds to be paid to the District Director of Internal Revenue at _____ for credit on Federal estate taxes due from estate of _____". Owing to the periodic closing of the transfer books and the impossibility of stopping payment of interest to the registered owner during the closed period, registered bonds received after the closing of the books for payment during such closed period will be paid only at par with a deduction of interest from the date of payment to the next interest payment date;² bonds received during the closed period for payment at a date after the books reopen will be paid at par plus accrued interest from the reopening of the books to the date of payment. In either case checks for the full six months' interest due on the last day of the closed period will be forwarded to the owner in due course. All bonds submitted must be accompanied by Form PD 1782,³ properly completed, signed and certified, and by proof of the representatives' authority in the form of a court certificate or a certified copy of the representatives' letters of appointment issued by the court. The certificate, or the certification to the letters, must be under the seal of the court, and except in the case of a corporate representative, must contain a statement that the appointment is in full force and be dated within six months prior to the submission of the bonds, unless the certificate or letters show that the appointment was made within one year immediately prior to such submis-

sion. Upon payment of the bonds appropriate memorandum receipt will be forwarded to the representatives, which will be followed in due course by formal receipt from the District Director of Internal Revenue.

6. The bonds will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States bonds.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Office of the Treasurer of the United States, Washington. Commercial banks, which for this purpose are defined as banks accepting demand deposits, may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies. Others than commercial banks will not be permitted to enter subscriptions except for their own account. Subscriptions from commercial banks for their own account will be restricted in each case to an amount not exceeding 2 percent of the combined amount of time certificates of deposit (but only those issued in the names of individuals, and of corporations, associations, and other organizations not operated for profit), and of savings deposits, or 5 percent of the combined capital, surplus and undivided profits, of the subscribing bank, whichever is greater. All subscriptions, including those from commercial banks for their own account, must be accompanied by payment of 20 percent of the amount of bonds applied for, which payment must be made to the Federal Reserve Bank or Branch or to the Treasurer of the United States, in immediately available funds or by credit in a Treasury tax and loan account. Following allotment, any portion of the 20 percent payment in excess of the amount of bonds allotted will be returned to the subscribers.

2. Commercial banks in submitting subscriptions will be required to certify that they have no beneficial interest in any of the subscriptions they enter for the account of their customers, and that their customers have no beneficial interest in the banks' subscriptions for their own account.

3. The Secretary of the Treasury reserves the right to reject or reduce any subscription, and to allot less than the amount of bonds applied for, and to make different percentage allotments to various classes of subscribers; and any action he may take in these respects shall be final. The basis of the allotment will be publicly announced and allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. SUBCHAPTER 810—GENERAL PRINCIPLES OF ORGANIZATION

PART 811—BASIS OF RESPONSIBILITY DISTRIBUTION

811.1—POSTMASTER GENERAL AND DEPUTY POSTMASTER GENERAL

.11 All responsibilities and authorities for performance of the work of the Post Office Department are vested by law in the Postmaster General, who may redelegate them to subordinate officers. The Postmaster General operates through delegation, as provided herein, except as to any matters which he may generally or specifically reserve for his personal decision, notwithstanding formal delegations.

.12 The Deputy Postmaster General functions as full alternate to the Postmaster General with full authority to act in his stead on all matters.

811.2—HEADQUARTERS AND FIELD

.21 The duties assigned to the Department in Washington relate mainly to:

- Program planning, direction, and review.
- Establishment of policies, procedures, standards, and other guidances.
- Operational determinations on matters not logically within the full jurisdiction of field officers.

.22 Field installations are assigned responsibility for:

- Local decision-making and performance of work in accordance with official delegations and prescribed policies, procedures, and standards.
- Referral to superior authority of matters requiring higher decision, accompanied by appropriate recommendations.
- Reporting of performance, special problems, trends, and other operating information necessary for effective planning and action by superior headquarters.

811.3—STAFF OFFICERS AND STAFF UNITS

.31 Staff officers to the Postmaster General and the Deputy operate in behalf of their superiors as extended arms of his personal authority. Staff officers do not have authority in their own right to make decisions on matters within the defined scope of other bureaus and offices. To the extent they participate in such decision-making, they do so as personal representatives of, and in behalf of their superiors.

.32 Staff officers keep their superiors informed as to significant developments, implications, and needs for action. They may represent their superiors in coordinating developmental plans and programs of an interbureau nature.

.33 Additional duties of a service or control nature may be assigned to staff units, as provided in their individual functional statements.

.34 Staff officers and staff units in subordinate components of organization within the Postal Establishment are expected to operate in accordance with the principles stated in this section.

811.4—OPERATING BUREAU

.41 The Bureau of Operations is the sole operating bureau at the departmental level having line responsibility over the field organization.

.42 It carries out the policies and programs of the Postmaster General on all matters pertaining to the provision of postal service within the scope of its functional statements and delegations.

.43 The execution of policies and program by the Bureau of Operations in the field is discharged with the policy guidance, advice, and support of other bureaus and offices acting within the scope of their own functional statements and delegations.

.44 In the event of differences of opinion with other bureaus and offices as to operating policies or actions, the Bureau of Operations is expected to exhaust every means for composing differences. The means for referring these differences for higher decision ordinarily rests with the Bureau of Operations.

811.5—POLICY AND ADMINISTRATIVE BUREAUS

.51 The Bureau of Transportation, the Bureau of Finance, the Bureau of Facilities, and the Bureau of Personnel develop or establish policies and programs within their respective areas as defined in their functional statements and delegations. They perform also certain supporting or auxiliary functions as assigned to them in functional statements and delegations. Their mission is to provide the overall policy and program guidance which will contribute to the effectiveness of field operations.

.52 The Bureau of Finance, the Bureau of Facilities, and the Bureau of Personnel develop or establish policies and procedures pertaining to the internal administration of the Department's operations, within the scope of their delegations. They do so in coordination with the appropriate bureaus and offices so that new policies and procedures will realistically serve operating needs and convenience.

811.6—BUREAU OF THE CHIEF POSTAL INSPECTOR

.61 The Bureau of the Chief Postal Inspector functions as an independent factfinding and internal auditing arm for the Postmaster General. Its national and field offices are independent of the rest of the Department's organizational structure.

.62 Upon request of other bureaus and offices, or as assigned by the Postmaster General, this Bureau also performs in a similar manner in behalf of other bureaus and offices and regional operations directors.

.63 This Bureau also exercises certain law enforcement, security, protective, and emergency responsibilities.

.64 Internal auditors stationed in the field operate as an independent group reporting through area audit managers, in turn, to the Director, Internal Audit Division and the Chief Postal Inspector.

811.7—OFFICE OF THE GENERAL COUNSEL

While the General Counsel serves the Postmaster General and the Department

generally on legal matters, he also performs certain administrative functions specifically delegated to him.

811.8—OFFICE OF RESEARCH AND ENGINEERING

The Office of Research and Engineering provides independent research and development facilities for the application of engineering principles, techniques, and developments to operations of the Postal Establishment. Its director serves as the principal advisor to the Postmaster General, the Deputy Postmaster General, and the heads of other bureaus and offices on all phases of industrial research and engineering.

PART 812—DELEGATIONS OF AUTHORITY

The Postmaster General is authorized by this law to delegate his authority to officers and employees under his direction and supervision.

.12 An Assistant Postmaster General is authorized to act in behalf of the Postmaster General on all matters within the terms of reference of that Assistant Postmaster General. In the absence of an Assistant Postmaster General from duty, his functions shall be discharged by his Deputy Assistant Postmaster General or other designated officer, next in line, who shall use the title of Acting Assistant Postmaster General and sign documents as such. When a designation is to be made to an officer of lesser rank than a Deputy Assistant Postmaster General to act as Assistant Postmaster General, the prior approval of the Postmaster General or the Deputy Postmaster General shall be obtained.

.13 Specific written delegation granting authority for the performance of acts specifically vested in the Postmaster General or in the Post Office Department by statutory or administrative law is sometimes required, such as those which authorize the incurring directly of an obligation on behalf of the United States Government or the certification of vouchers for payment. Evidence of this authority is necessary for audit purposes or to support the validity of official acts in case of legal contest.

812.4—REDELEGATION

.41 An Assistant Postmaster General may redelegate any authority vested in him, except as otherwise provided by law or administrative regulations.

.42 Authority to commit the Post Office Department or the United States Government may be subdelegated by the Deputy Postmaster General or by an Assistant Postmaster General. Other subordinate officers may not redelegate authority to perform acts in accordance with legal requirements.

.43 An officer may redelegate responsibility for the ordinary performance of duties, except as provided in 812.41.

[Docket No. G-14723]

CITIES SERVICE OIL CO. ET AL.

ORDER FOR HEARING AND SUSPENDING
PROPOSED CHANGE IN RATES

JUNE 3, 1958.

Cities Service Oil Company (Operator) et al. (Cities Service), on May 5, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Supplemental Agreement,¹ dated March 1, 1958.

Purchaser: Northern Natural Gas Company.

Rate schedule designation: Supplement No. 24 to Cities Service's FPC Gas Rate Schedule No. 89.

Effective date: June 5, 1958 (effective date is the first day after expiration of the required thirty days' notice).

The proposed rate increase herein is supplementary to and a continuation of the same renegotiated rate increase which was tendered to the Commission on February 19, 1958, and was suspended by Commission order issued March 21, 1958, in this proceeding, until August 22, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act. The increase tendered on February 19, 1958, was on behalf of a non-signatory co-owner with Cities Service, however, the interests of certain signatory co-owners, whose gas is sold pursuant to the rate schedule but who had neither agreed to the price or been included in the arbitration proceeding, were not included.

The filing tendered herein consists of a supplemental agreement in which the signatory co-owner now agrees to the price for his portion of the gas.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Com-

mission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 24 to Cities Service's FPC Gas Rate Schedule No. 89 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 24 to Cities Service's FPC Gas Rate Schedule No. 89.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until August 22, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

CITIES SERVICE OIL CO. ET AL.

ORDER FOR HEARING AND SUSPENDING
PROPOSED CHANGES IN RATES

JUNE 3, 1958.

Cities Service Oil Company (Operator) et al. (Cities Service), on May 5, 1958, tendered for filing proposed changes in its presently effective rate schedule for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings:

Description: (1) Supplemental Agreement,¹ dated March 1, 1958. (2) Supplemental Agreement,² dated March 1, 1958.

Purchaser: Northern Natural Gas Company.

Rate schedule designation: (1) Supplement No. 75 to Cities Service's FPC Gas Rate Schedule No. 70. (2) Supplement No. 76 to Cities Service's FPC Gas Rate Schedule No. 70.

Effective date: June 5, 1958 (effective date is the first day after expiration of the required thirty days' notice).

¹Phillips Petroleum Company, signatory co-owner under the contract, agrees to renegotiated increase.

²George E. Morgan, et al., signatory co-owners under the contract, agree to renegotiated increase.

The proposed rate increases herein are supplementary to and a continuation of the same renegotiated rate increases which were tendered to the Commission on February 19, 1958, and were suspended by Commission order issued March 21, 1958, in this proceeding, until August 22, 1958, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act. Included within the increases tendered on February 19, 1958, were non-signatory co-owners with Cities Service, however, the interests of certain signatory co-owners, whose gas is sold pursuant to the rate schedules but had neither agreed to the price or been included in the arbitration proceeding, were not included.

The filings tendered herein include supplemental agreement in which two signatory co-owners now agree to the price for their portion of the gas. However, the interest of Phillips Petroleum Company (Phillips) is not controlled by Cities Service's subject filing (designated as Supplement No. 75 to Cities Service's FPC Gas Rate Schedule No. 70) but by a separate filing made by Phillips on April 23, 1958, under its own FPC Gas Rate Schedule No. 176 and now suspended in Docket No. G-15088 until October 24, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

The increased rates and charges so proposed have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that Supplement Nos. 75 and 76 to Cities Service's FPC Gas Rate Schedule No. 70 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in Supplement Nos. 75 and 76 to Cities Service's FPC Gas Rate Schedule No. 70.

(B) Pending such hearing and decision thereon, said supplements be and they are each hereby suspended and the use thereof deferred until August 22, 1958, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37

¹Frank A. Griffin, Jr., signatory co-owner under the contract, agrees to renegotiated increase.

(f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).
